## **1 SCOPE**

The release of the Draft Modernized Expanded Capacity Vehicle (MECV) Performance Specification, Classified Annex A, and Unclassified Annexes is for informational and planning purposes only and is not to be construed as a commitment or obligation by the US Government. Multiple revisions of the Performance Spec and Annexes are expected between now and any potential release of the RFP. The intent for releasing this Draft is to provide industry with the forecasted direction of the US Army MECV program requirements and is not final. This website will be updated with the latest version of the Draft Performance Spec, Classified Annex, and/or Unclassified Annexes as available.

The enclosed listing describes the current HMMWV BII. The MECV BII need not utilize the specific components listed below, as long as the equivalent capability is provided.
